

MAKE YOUR OWN CHRISTMAS PAPER CHAINS

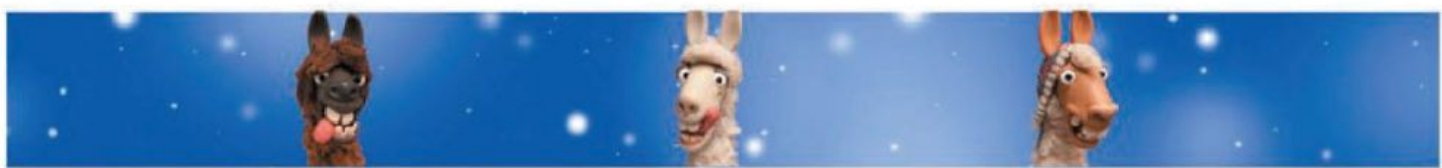

Decorate your room or office with some sparkly paper chains!

You will need:

- Paper
- A printer
- Scissors
- Glue or sticky tape

1. Choose the colour of paper chains you'd like to make from the template sheets, the print and cut out the strips. Be careful with sharp scissors – ask a grown up for help if needed.
2. Bend the strip of paper into a loop, then use glue to stick it together
3. Take the next strip of paper, put it through first link in the chain and stick it together to form the second loop
4. Repeat step 3 until you've made a chain as long as you need!
5. Use sticky tape or pins, stick your paper chains around your room! Ask a grown up to help if you can't reach!
